

... to the world of Hitzinger.

Hitzinger is the world's leading manufacturer of individual power supply systems.

We produce tailor-made gensets, generators, transformers, alternators and airport equipment.

Hitzinger stands for highest quality, efficiency and durability. This is why international customers trust in our products and technologies - since 1946.

Our headquarters are in Linz - AUSTRIA. Here, our 250 employees put their effort and know-how in the whole research, development and production process.

Together with our more than 40 subsidiaries and partner companies around the globe, we strive for continuous improvement. Customer focus, state-of-the-art technology and professional service support guarantee our customers:

POWER! AT THE RIGHT MOMENT.

Gensets coming soon ...

they are already
on their way to
Linz
